

Discounted Screening Program for NASP

Often imitated, but never duplicated, One Source and its TotalCheck[®] package provides you the most complete background information available along with education to empower you to make the right decisions. One Source is your collaborative partner to assist you in making confident hiring decisions. Let us help you with your DHHS screening compliance with our all-in-one solutions.

Our TotalCheck[®] Package Includes:

✓ Applicant History Trace

By thoroughly searching public records to verify the applicant's information, we can find:

- Aliases or "AKA" names
- Falsified dates of birth
- Searched against Death Master Index
- And more

✓ Criminal History

We search real-time, original source records directly at the county level to report felony and misdemeanor convictions. There are over 20 states that provide this information electronically. These are non-database searches. Includes all 93 counties in Nebraska.

✓ Multi-Court Jurisdictional Database

This comprehensive criminal search houses millions of records from over 350 sources across the county such as:

- Department of Corrections
- State police reports
- County courthouses
- And more

✓ Federal Criminal

One Source searches the government's name-based national index for U.S. district and appellate court cases. We cross reference name matches against identifying information in this index and against the Federal Bureau of Prisons databases. In doing so, we compare records of persons who have been in federal prison.

✓ Global Watch

This search includes a variety of federal, state and industry sanction lists of Terrorist Watchlists. Additional sanctions and watch lists are added as governments and international organizations release them.

✓ Nationwide Sex Offender Registry

A search of the National Sex Offender Registry including:

- All 50 states
- 104 Tribal Registries
- Guam
- Washington D.C.
- Puerto Rico
